WHEN the revision of the Shanghai Land

Russell & Co. certain premises which Hongkong Trading Co., LD. it is claimed belong to the Howgua family but which Russell & Co. man with the fareloal comedy" Dr. Bill." aged in their own name. On the failure of Russell & Co. the China Merchants' Co. who figure amongst the creditors of the estate, discontinued the payment of rent, which they apparently intended to retain as at 9 a.m. and returning at 10 p.m. a set-off against their claim. Thereupon Mr. H. S. Wilkinson, Her Majesty's Crown O. steamer Lombardy left Singapore for this the trustees of Russell & Co.'s estate, caused the premises to be seized, early on the morning of the 18th September. When Mr. CHUN FAI-TING, the manager, arrived at his office in the morning he found the doors N., long. 11220 E., the same wishing to be reclosed. Thereupon he applied to the Police, but getting no satisfaction from them, he collected a force of the Company's coolies and led them to the office. In view of this force the eight foreigners in possession retired. and the Company's representatives resumed possession. While these proceedings were going on it was expected that some dis-HONGKONG TRADING CO., LIMITED. turbance would occur, to prevent which strong force of police was drafted to the spot a party of blue jackets from H.M.S. Careline was landed, and the Taotai sent a party of Chinese soldiers. Fortunately, however all passed off quietly. The net result is that in the so-called British concession a Chinese company forcibly ejected a party Wednesday next.

possession of certain premises the title to

which was in dispute.

in it all the elements of tragedy. The Mercury says the result might well have been to ITALIAN AND AMERICAN MARBLE light a conflagration which might have spread from Shanghai to Chungking, even if there were no ultimate lateral extension northwards and southwards. At a time like the present, anything calculated to provoke hostile encounters between ness and foreigners is much to be deprecated, and the fact that Mr. H. S. [1874] WILKINSON, the Crown Advocate, was the Siamese Government profit by the example of and the determination was then to endow the has been so indefferent with regard to the the leading spirit in the affair has been temporaries. That gentleman was of course acting as a lawyer in private practice, not in his official capacity, but sometimes it is diffi-who will do their work in a thorough and con-cult entirely to separate a man from his scientious manner. THE COLONY'S WATER SUPPLY. The Acting Government Analyst's report on the Tytam and Pokfulam water supply for September was laid on the table. The report stated that the filtration under existing conditions was efficient and the results of the analyses most satis factory. The low figure for "exygen absorbed." and the entire absence of "free and albuminoid ammonia" indicated that the quantity of dissolved organic matter was very small. Comparing the analyses of four English water supplies of known purity with the Hongkong supply, it was found that in no instance was Hongkong outclassed. Dr. Cantlie in a minute appended stated that the Board was indebted to Mr. Lucas for the care he had taken to represent the quality of the water but enquired what Mr. Lucas meant by his statement "exist-

The COLONIAL SURGEON said he might explain what Mr. Lucas had stated in his report. If there had been no rain the difference between Samarang lead the Lagemotics to call attention | the water before and after filtration was scarcely the difference was noticeable. The water here was the purest to be obtained anywhere.

W. J. SIUNDERS, Acting Secretary. THE SELAMA TIN MINING COM-PANY, LIMITED. The following is the report for presentation

to the shareholders at the second ordinary meeting to be held at the office of the Company, Queen's Road, Victoria, Hongkong, on Saturday, the 10th October:-The directors have the pleasure to submit their report on the working of the company together with a statement of accounts for the twelve months ending

50th June last showing a further sum of \$30,609.45 at dehit of working account in connection with the property at Selama, and \$18,273.95 on the properties at Blanda Mabok and Tekka (Kinta).

The buildings at Selama are offered for sale to the Perak Government for \$3,55°, and the difference of \$1.654.51 has been written off to depreciation; this amount together with the cost of roads and other buildings, considered as an asset in last year's account, are now included in the amount at debit of working account. The Selams account shows a total debit of \$71,493.92 and Blanda Mabok and Tekka \$24,001.17.

A few days prior to our last annual meeting a The annual general meeting of the Hongkong enring was tapped in the 147-ft. level, which drowned Jookey Club was held in the City Hall yester. the pump and necessitated the purchase and fixing of new pumping machinery constructed by the Hong-kong and Whampos Dock Company. In the mean-time levels were started at 35 and 60 feet; when the shaft was cleared of water in January the 177-ft. level was continued for 76 feet but nothing in the The CHAIRMAN, in opening the meeting, said shape of a lode was found, and as Mr. Laws on open-Gentlemen, we have very little to do to day, ing out and driving levels from Hooper's old shaft, where the original specimens of tin ore were found. could discover no trace of tin, and his reports being against the probability of a lude existing, it was decided to abandon operations at Selama. This result was totally unexpected by all; no doubts ! or fears had been entertained as to the existence of a linext on the world's list to the ports of London. lođe rich in tin ore.

Mr. Hooper's report handed over by the Persk Tin Mining and Smelting Company stating that "it was mere waste of time continuing the sinking of his old shaft, the richness of the lode at that point being the East. The colony is also the headquarproved beyond all doubt," having been generally accepted, the development of the property was loft in- his (Mr. Hooper's) hands, with the present lamen-Early in November, 1890, Mr. W. These evidences of prosperity to draw, but the same has been placed to their credit are specially interesting in relation to the ques-

The prospecting permit over 300 acres at Klian Bahra has been allowed to lapse.

Hongkong, 36th September, 1891. The following extract from Mr. Orange's report gives that gentleman's views of the prospects

of the Company

After visiting the mines I was at once impressed with the magnitude of the task which the Company had undertaken viz., practically to prove the existence of lodes in the State of Perak. There is absolutely of lodes in the State of Perak. There is absolutely nothing to prove that a lot- does or can exist in any of the places worked. I Mirlage indications and geological formations may be favourable, but for such metals as may be likely to be found, it means a very large expenditure of money in exploratory work before any degree of certainty can be arrived at.

Of the three fields explored by the Company, one, Selama, has proved a disastrous feilure. It is easy to visit Selama now, and to say that no one would imagine a lode to exist there, but before work was commenced surface indications, as favourable as Tekka, existed, and competent men were certain of the existence of a lode.

At Tekks, or the Kints Valley field, several outcrops of the most promising description have been discovered and it was imagined from their positions that a continuous lode existed running N. and S. Our operations so far prove Tekks lode to run N.E. and S.W. so that all the outcrops discovered may be and S.W. so that all the outcrops discovered may be separate lodgs. To prove any one spot is to make all other places of an immediate and decided value and therefore pratically the whole field is waiting for the result of this Company's work. An adjacent block, Mahlembu, has stopped working though there is supposed to be a large deposit of rich tin and copper ore, but if Takka lode makes and improves. In death, the owners of any outered of aufficient in depth, the owners of any outerop of aufficient promise will be encouraged to proceed with work. At Blanda Mabok we are pursuing the same piencering work on probably a galena lode. To work stiver lead requires a very large capital, themschinery and plant is expensive, so that a large and rich mine alone is worth taking, even in a country, known to contain such losies while Perakis on unknown land.

I was therefore impressed with the thought that 7,527.98 unless the reward was sufficient such prospecting work was not justifiable, and that the area of ground work was not justifiable, and that the area of ground given was atterly inadequate for the great risk the Company is taking, and I do not think that the Company was ever justified in commencing work at Tekka or Blands Mabok, without a more definite and generous concession from the Government.

Consequently Mr. Aylosbury and I had interviews with F. A. Swettenham, Esq., C.M.G., the British Resident at Thiping, and I had before him the above views, at the same time I pointed out that the Company was already, through the failure of Selama, addied with a large amount of lest capital and the

anddled with a large amount of lost capital and the only way of recouping such ontlay was by acquiring sufficient ground to sell to other companies. Mr. Swettenham met us in a very cordial manner is was extremely complimentary to the way in which the Company was trying to carry on work, and frankly recognized it as the pioneer of lode mining in the state and he asked for our demands. Those were laid before him and discussed, and the following conditions were agreed to by Mr. Swettenham and sent to H. E. the Covernor of Straits Settlements. (Here follow the conditions, which give the company very large prospecting powers.)

THE RAUB AUSTRALIAN SYNDICATE The following is the half-yearly report of the

Raub Syndicate:-The directors beg to submit herewith the fourth-halance-sheet of the Company's operations, embracing a period of six months, to 31st July, and including the Singapore accounts to 30th June. The quantity of stone raised and treated has been 1,350 tons, yielding 926 ounces of gold. Crushing finished on the 11th June. The machinery was then overhauled and the mills started again on lith July. but shortly after had to cease working owing to want of water. The manager cabled on 18th instant that there were 400 tons of quartz, carrying good gold, at 164,862.14 gross, and it is satisfactory to note that the western 413,805.02 lode, from which most of the ornshing stuff is obtain-272,498.88 ed, appears to get richer at depth. The manager has been instructed to report generally on the property.

\$1,996,572.35 and his letter should arrive in time for the general

A considerable addition to the crushing plant is contemplated, specifications being in course of preparation. Winding machinery and frue vanners have already been forwarded. There are at present 16 Foropeans and 159 coolies employed at the mine. Instructions have been given to close the London Office referred to in last report, come I having advised that the articles of association do not permit its

THE "TIMES" ON HONGKONG. Below we reproduce a letter addressed to the

comments thereon:--To the Editor of the "Times." Sir,-I should be much obliged if, in justice. to the colony of Hongkong, you would correct an error in the article entitled "The Commonwealth of Australia" which appears in your is-

sue of this morning.
It is there stated as follows: "Within the Empire Melbourne is exceeded a absolute tonnage only by London, Liverpool Cardiff. and Newcastle The writer is evidently unaware that the port of Victoria, Hongkong, surpasses, in respect of tennage, all other ports in the world except those

of London and Liverpool (and possibly that of New York, of which I have never seen the Though I have not the actual figures by me here. I am able to say that the return which reached me just before I left the colony showed the aggregate capacity of vessels entered and cleared at the port of Victoria, Hongkong, in 189), to considerably exceed 13 millions of tons the Hongkong port thus surpassing in this respect, not merely the port of Melbourne but all the ports, taken together, of the Australian colonies of Victoria and New South Wales. In my report of 1889 on the condition and prospects of Hongkong. I gave the tonuage for 1888 of vessels entering the port of Victoria as 6.400.410, and as these figures are. I observe. quoted in "Whitaker's Almanack," it may possio bly be useful to some of your readers to explain that the number requires to be about doubled for "vessels entered and cleared;" and I may

of all former years.—I am. Sir, your obedient WILLIAM DES VOUX, late Governor of Foot's Cray Place, Foot's Cray, Kent, Aug. 28.

The Times of the 31st August writes:-

add that in this matter of tonnego the Hong-

kong figures for 1890 considerably surpass those

Amongst the 42 Governments which constitute Her Majesty's colonial possessions, there are some which habitually absorb so much attention as almost entirely to overshadow the less dramatic history of others. Houghoug is not. however, one of those which can be forgotten. With a harbour ten miles square, in which, as Sir William Des Voux reminded us on Saturday, the amount of tounume annually registered ranks Liverpool and, perhaps. New York, the town of Victoria in Hongkong occupies the position of one of the principal commercial centres of ters of the China squadron and thus, alike from the point of view of peace and of war, constitutes too important a link in the chain of British communications to be for any long period of time lost sight of. Its history has been for mission of the Hon. C. P. Chater, examined and of time lost sight of. Its history has been for reported on Selams and other workings in Perak. His years past one of constantly increasing prosthe financial condition which Sir William Des "This country is the most promising in every way Vosux laid before the Legislative Council before anywhere in the Malay Peninsula, the shaft has taking his leave of the colony as Governor been sunk some 29 feet and shows results which I points to a prospect of equal promise for the regards eminantly satisfactory; it is sunk almost future. Taking in turn the subjects of local lits suffer doubt in read to the subjects of local its entire depth in good solid rock.

"There is no manner of doubt about the rock so far mined being stanniferous, or tin bearing owned."

deposits, the address shows that, at the end of 1887, there were 26 public companies whose shares "to be richer in the than it is now, my strong impression is that it will become or show more the charing an aggregate paid up capital of \$26,230,000 and the value of which was \$46,870,125. At the beginning of 1891 there were 54 public companies, with a paid-up capital of \$44,074,950 and a market value of \$77,200,850, which gives an increase, in 3½ years, of 23 companies and nearly The ballot for the stewards was then proceeded whose advice the new shaft had been started, was \$18,000,000 of paid-up capital. Of shipping devoid of the necessary technical knowledge required cleared and entered, the tournage rose in the same to direct or originate and carry on the proper work requisite for the successful opening up of a lode; they consequently wired home for a thoroughly efficient port this is the only indication which can be obtainengineer to develop the properties, and have secured ed of the volume of foreign trade. The trade with
the services of Mr. George Laws, who arrived at China, which could be estimated from the Chiusse Customs reports, showed an increase in 1890 of about £1.750,000 on the preceding year. regards the prospects as extremely promising.

Lest month one of your directors. Mr. J. Orange, clarming diminution in the amount of bank devisited Perak on behalf of the Board, and his report posits had taken place. The returns of the is annexed; a valuable concession has been obtained British banks in the colony showed, on the whole. Pessimistic rumours had been issued that an British banks in the colony showed, on the whole, a slight increase, and the returns of the Chinese gratifying to see that there is every disposition on their part to aid this company, which so far has met banks, which there was some difficulty in obtain-with such misfortune in its operations. ing with accuracy, appeared to indicate a nearly corresponding decrease, while, at the same time, money was reported by the Registrar-General to be very plentiful with the Chinese, amongst whom it was obtaining unusua-

EUROPEAN ARTILLERYMEN FOR INDIAN ALLAHABAD, 8th September. The Home authorities have agreed that in the working of heavy guns at Aden and the tures. fortified ports of India, European gunners should be employed, lascars being trained for manual work under their direction. This will necessarily involve an increase in the number of

Garrison Artillerymen in India, and some 800 will be sent out. The strongth of each Battery at the various ports will be increased by 50 or 60 men, so that the unit will be larger than at present obtains Special officers will also be appointed, who will be skilled in range finding, and fully acquainted with shore defences. THE RUSSIANS IN CENTRAL ASIA. ALLAHABAD, 8th September. The Russians are said to have placed a small

garcison at Ak Kum, on the right bank of the This is apparently the first step towards the Tokio .. occupation of Kilif Ferry, which is forty miles to the south-east. There can be no longer any The Times in an article this morning says doubt as to the renewed activity of the Russians in Central Asia: 🕒

BOIENTIFIC MISCELLANY.

A German engineer. Herr Stechner, has de signed an apparatus for automatically tracing the profile of a river bottom from a boat travelling from 3 to 6 miles an hour. It consists of a ourved arm, hipped at the upper end, and so long that the lower curved portion trails on the bot-tom of the stream. By means of a suitable re-cording mechanism, the variation in the inclination of the arm registers the depth on a revolv ing drum as the boat progresses. Soundings on the Elbe bave been made with this instrument over a distance of 207 miles in 10 days.

The use of substances which swell greatly of exposure to water has been often recommended as a protective armour for war-vessels. The On GERMANY. An Anglo-Chinese Dictionary, published at the Daily Press Office, Hongkong. For comprehensiveness and practical service this Work stants unrivalled. All the new THE "DAILY PRESS" OFFICE, words which the Chinese have of late years been All proofs are read and all work compelled to coin to express the numerous obsuperintended by Europeans. Always jects in machinery, photography, telegraphy, equal and generally superior to that and in science generally, which the rapid advance of foreign relations has imposed upon them, are here given in extenso. Each and every word is for students of a most instructive nature. Both Containing the names of all the Articles of the Court and Punti pronunciations are given displays the success of an attempt to make the Chinese and English type correspond in the size of body, thereby effecting a vast economy of space, achieving a clearness not previously with the best materials, and under attained, and dispensing with those vast margins

and vacant spaces which have heretofore characterized Chinese publications. To illustrate the vast scope of the work the following facts are submitted for consideration:-Chalmers' Vocabulary contains about 16.000 Chinese characters. and Medhurst's English ters. Again, despite all the grammars and [1494 other elementary works as yet published the student of this difficult language absolutely requires examples to display the various applications and equivalents of different words which have one general meaning. Of these examples this work contains more than five times as many as any other Dictionary bitherto pub-

For practical purposes the arrangement of the work is so complete, that a reference to its understand nothing but Chinese. In this respect the work will be found indispensable to all Europeans residing in China, and to the natives themselves it explains subjects fully with which very few indeed of them are perfectly acquainted. To parties resident in England and interested in China it cannot but be invaluable cocasion-

It comprises upwards of two thousand large quarto pages. 4 Vols. IMPERIAL QUARTO, Price, \$20. A Large REDUCTION in PRICE is made

(To be continued.)

SHE PUT IT IN THE CUPBOARD.

What a weary thing it is to be ill, especially for a long time. You are tired of advice, tir d of trying this, that, and the other, tired of fancying you are a trifls better tired of taking precautions against getting worse. You are tired of pain, and half believe the sooner you are under the ground the batter for you, and the more agreeable to your friends. Here's a little story. A woman told it lately.

"I, Mary Jones, of 3, Galton Street. Great Howard Street, Liverpool, declare as follows: "I have suffered all my life from weakness of the stomach and sluggish liver. I was always tired and languid, and often troubled with bilious headache. My appetite was poor. I never had desire for food, and what I did eat did not digest properly. I had always a bad taste in my month, and a slimy soum would cover my wouth and tooth, and so bid was this that I was obliged to rinse it away before eating. When I was in my teens I was very weakly and would faint after sitting down to my meals. I had trembling at the heart, with a heavy weight at the chest, pain at my side, and a strange giddy feeling would come over me. When out walk-"If I had her for five minutes to myself, I'd ing in the street I used to have to stand and rest for fear of fathing. I was also so weak that when going about my work I often had to sit down and rest. At times I had a bad o uph and pain in my lungs. I saw doctor after doctor. and was under medical treatment for more than twelve years. One doctor said I was suffering from an enlargement of the liver, another said I had heart disease, a third said my lungs were congested and that I could not recover. Thinking I was now in a consumption, I went to a consumptive hospital and was under treatment there for some time. The doctors, after sound-

ing my chest, told me I was in a decline, and

that my left lung was congested. They gave me cod-liver oil and other medicines, but I got "In July, 1890, after a bad fainting I became so bad I had to take to my bed, and was attended by three doctors for a minth. The first deator tried and found useless. I could take liquid food only and was fast sinking, my case being considered hopeless by both the physician and the nurse. At this time it was that my husband heard through Mr. Parry, the chemist in Great Howard Street, of a medicine called Mother Seigel's Curative Syrup, and we were presented with a book which described a case just like mine having been cured by it. My hashand procured a bottle of this medicine and I began taking it. After a few doses I passed a motion as black as coal and experienced great relief, and shortly after felt as if I wanted something to eat. When the doctor called the next day he could see a marked change in me and said. Mrs Jones. we have given you the right medicine at last." He thought it was his last bottle that has worked the change, whereas the nurse had put the medicine in the oneboard untouched. I went on with Mother Seigel's Syrnp, and to the delight. of my husband, father, and nurse I never look-

was strong enough to be removed to the saiside, and have ever since been in good bealth. "L never felt so well in my life as I do now All my friends consider the cure as a miraculous one, and I wish others to know by what means rry life was saved. I am willing that Messra. A. J. White, Limited, shall make whatever use tney may think fit of this statement, and I hereby authorise them to do so. " Dated this 3rd April: 1891.

ed behind me. All the pain at the heart and

chest gradually left me, and in a fortuight I

"(Signed) Mrs. Many Jones." There was nothing "miraculous" about this ady's recovery, although it may have been, and indeed it was remarkable. But it was all along the straight lines of nature. She had suffered all her life from indigestion and dyspensia, and her other ailments gross from that, and that alone. She could not digest her food, and the whole system was perishing from the poisson in the stomach and from lack of nutrition. Mother Siegel's Syrup did its one work, it cleaned away the corrupted matter and set the digest we organs (the liver, stomsch, and bowels) in natural operation, and immediate improvement and final recovery followed as necessary consequences Especially should the reader notice the close

resemblance between the symptoms of dyspopsia and those of consu-ption, through which most unhappy mistakes are constantly made. Never conclude you have consumption until you are sure it isn't dyspepsia. The chances are that the result will be the same as in Mrs. Jones' case.

Apropos of theology, Mr. Justin H. Monished with almost theatrical extravagance, his it will be all over with poor me. But (with a Carthy has the following story in Black and large drawing-room especially being a replica of stage 'aside') I'll tell you why it won't do to White related to him by an English lady on the one of the boudoirs of the Little Trianon, where- fumigate this evening. There's a chance of Continent :-- at Bonn I went to the table unto be added several Grousss-only unluckily Lady Puffins putting in an appearance, and-well d'hôte, as I could not otherwise get anything to "I've been bitten, I own. But that won't do. they were copies, and needed a London for to she can't abear it. So come along, Jack Crux, eat, and I had nothing but some broad all day. I sat next an old gentleman, enormous, and gob-Still it was all very protty-rather more All of which—to be candid—was very jaunty bling like a giant. He entered into talk and fragrant, porhaps, of the flora of Habana than acting, though it a little pussled the Squire, told me he lived in Bonn, but came to the table of Versailles, while the furniture and curtains who rarely smoked, and cared not for paper to- d'hôte because the food was not go d enough at seemed to absorb that unconsidered trifle; dust. bacco. However, he had dined well, had laughed home that day; also that he studied theology. ed matter being in the wrong place, his snuggery sant, so with a smile to his wife he allowed him. Whereupon the old glutton looked at me over a exhibited signs of a cultivated taste, as well as of self to be led out of doors, while Tom with the mountain of goose and cherries, and said, with air of a consummate hypocrite pulled out his his mouth full but with the sterness of a St. Thitle: was wont to wend his way in the after- olgar-case with, "When I say a cigarette, on the Simon, "Do you mean that you think of nothing spelle the robbie of my existing solublence.

An interesting q a tion has been started by Mr. Henry Cabot olgo, the well-known American historiam. He has been discussing what he calls the distribution of ability in the United States. Where do "the most remarkable monin our country, sir," who are understood to be numer us, chieffe come from? It appears that the distribution is decidedly capricious and local. The South has given America her statesmen and soldiers-Washington, Raudalph, Lee, and the rest. The New England States. on the other hand, have alwast monopolized all that America has done so far in the way of literature, art a d science. The men of letters like Longfellow, Lowell, Em rson, and H.wthorne, the inventors and engineers, and also, it would appear, the actors have nearly all comfrom the North Atlantic scaboard States, or from what are called the Middle States. The discovery is curious; but not very surprising. It was to be expected that Virginia in the old slavery days should chiefly grow politicians; and it is not autonishing that literature and soinner have found their chief devotees among the enterprising, inventive, and welleducated Yankasa What is perhaps ourious is that the great W at has done so little as yet either in the one department or the other.
